LeetCode: Arun_prasath_ | Tirupur, TamilNadu

PROFESSIONAL SUMMARY

Third-year CSE student at Nandha College of Technology (CGPA: 8.17/10) with two software engineering internships and hands-on experience building scalable, AI-integrated systems using Java, Python, and JavaScript. Designed real-time data pipelines, RESTful backends, and concurrent processing systems. 400+ LeetCode problems solved across DSA; 94% (Gold) in NPTEL Java — IIT Bombay.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, HTML5, CSS3

Frameworks: React.js, Node.js, Express.js, Flask, NumPy, Pandas, OpenCV, Streamlit, MediaPipe

Databases & Tools: MySQL, MongoDB, Git, REST API, Postman, Linux, Google TTS API

Competencies: Data Structures & Algorithms, System Design, Concurrent Processing, Distributed Pipelines, Performance Debugging

INTERNSHIP EXPERIENCE

Full Stack Development Intern | Crescent Infotech

Jun 2025 – Jul 2025

- Designed and deployed scalable full-stack features using React.js, Node.js, and MongoDB, managing end-to-end frontend UI and backend server integration throughout the project lifecycle.
- Architected REST API endpoints for structured JSON data flow between client and server; debugged cross-browser compatibility issues and optimized system performance across multiple application modules.

MERN Stack Intern | IIT Ropar – NPTEL (Winter Internship)

Dec 2024 – Jan 2025

- Selected through a nationally competitive process; mastered TypeScript, MongoDB, React.js, and Express.js via 30+ timed engineering sessions among 100+ interns nationwide.
- Completed 5+ case studies of increasing architectural complexity applying software design principles and systematic debugging; earned official NPTEL completion certificate via structured viva evaluation.

PROJECTS

Gazelink — Real-Time Webcam Eye-Tracking AAC System

Python, MediaPipe, OpenCV, Streamlit, Google TTS

- Architected a hardware-free, real-time accessibility system using MediaPipe FaceLandmarker (478 landmarks), converting any webcam into a cursor-control device for users with ALS or cerebral palsy — zero calibration; engineered a concurrent landmark-processing pipeline achieving low-latency gaze detection with 3 input signals and Google TTS supporting 10+ languages.

SOS Emergency Locator

JavaScript, Geolocation API, HTML5, CSS3

- Built a real-time SOS web app using the Geolocation API to broadcast live GPS coordinates; designed for high availability and mobile-first responsiveness across all devices.

Data Quality Guardian + Flask Backend

Python, Pandas, Flask, HTML5

- Implemented an automated B2B data pipeline for anomaly detection, deduplication, and job-function standardization targeting CRM and ML pipelines; built a scalable Flask backend with complete POST routing.

EDUCATION

B.E. Computer Science and Engineering | Nandha College of Technology

2023 – 2027

Anna University • CGPA: 8.17 / 10 • 3rd Year

Higher Secondary (Class XII) | Subash Matriculation Higher Secondary School

2022 – 2023

Score: 76.5%

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL – Java (12 Weeks): 94%, IIT Bombay | NPTEL – Cloud Computing (12 Weeks): 68%, IIT Kharagpur
- Oracle AI Foundations Associate — Certified 2024 | HackerRank – Python (Basic) & SQL (Basic) — Verified
